

# Dog park rankings for the 100 largest U. S. cities, 2019

## Introduction / Executive Summary

Based on annual research undertaken by the Trust for Public Land through our annual City Parks Survey, the Center for City Park Excellence has determined that dog parks, also known as “off-leash dog areas” are among the fastest growing park amenities in the combined parks systems of the 100 largest US cities. There are currently 810 dedicated dog parks in the 100 largest cities, an increase of 37 over last year. Many public park agencies now have ordinances and sets of design standards that govern the creation and ongoing maintenance and operation of dog parks. However, most important, we find that what makes dog parks successful is strong collaboration between the public parks agency, the surrounding community and a local dog advocacy group, primarily volunteers that have a strong ownership stake in the dog park.

## Current dog park numbers

2018 saw continued growth in dog parks in the 100 largest U. S. cities, with 810 dog parks in operation. Since 2009, we’ve seen a 42 percent increase in dog parks, when there were 466 dog parks in the largest U. S. cities.

Year	Number of Dog Parks	Change in numbers	Change in percentage from prior year	Growth since 2009
2019	810	37	4.6%	+ 344
2018	773	37	4.8%	+ 307
2017	736	55	7.5%	+ 270
2016	681	37	5.4%	+ 215
2015	644			+ 178
2009	466			

Dog parks are among the fastest growing amenities in the 100 largest U.S. Cities’ park systems and the top cities may be surprising. We calculate rank based on the number of dog parks for every 100,000 residents in a given city. For more information and other park data, look for our annual ParkScore® report, to be released May 22<sup>nd</sup>, 2019.
