PARK FACT San Francisco's most visited park (and the third most visited park in the US, according to the city) was once an expanse of sand dunes. Golden Gate Park was designed in 1870 by William Hammond Hill. While known for icons such as this park and The Presidio (home of the Golden Gate Bridge), San Francisco is also alive with unique parks of all sizes throughout the city. In fact, 100% of San Franciscans live within a 10-minute walk to a park!
